

## **RNS Announcement**

### **Additional information disclosures - Ventus VCT plc (the "Company")**

Shareholders have requested additional information in relation to a number of aspects of the Company's finances and its commercial relationship with Temporis Capital Limited, the "Investment Manager".

In order to facilitate a more informed discussion of these matters at the Annual General Meeting to be held at noon 8 August 2019 the Board wishes to disclose the following information:

1. Detailed breakdown of "Other Costs" disclosed in the management accounts for the year ended 28 February 2019
2. Detailed breakdown of Thalia Power Limited charges to the Company's investee companies
3. Detailed breakdown of the directors' fees paid to the Investment Manager from the Company's investee companies

Furthermore, in relation to the performance fee payable to the Investment Manager pursuant to the investment management agreement (the "Performance Fee") between the Board and the Investment Manager (the "IMA"), the Board makes the following additional disclosure:

The IMA provides that in the event the Company terminates the IMA in the absence of any breach by the Investment Manager, the Company's obligation to pay the Performance Fee to the Investment Manager continues beyond the termination of the IMA in respect of investments that were completed up to the date of termination.

This provision was fully disclosed in the original prospectus describing the first IMA. Directors at that time understood this to be the then current practice and to be a reasonable incentive to the investment manager. The only amendments to this provision relate to the creation of subsequent share classes to include the issuance of C and D shares in the relevant calculations.
